## APPENDICES.

REPORT  
OF THE  
ELECTION DEPARTMENT  
FOR THE YEAR ENDING JANUARY 31, 1910.

---

BOSTON, March 9, 1910.

HON. JOHN F. FITZGERALD,  
*Mayor of the City of Boston:*

SIR,—In compliance with section 24 of chapter 3 of the Revised Ordinances, the Board of Election Commissioners respectfully submits its annual report.

NUMBER OF VOTERS.

At the city election held December 15, 1908, the number of male voters on the list was 110,656. The number of such voters on the first list published by the Board in August was 99,770. From that time to the close of registration for the city election there were added the names of 13,483 male voters. In revising the voting list, after its publication in August, 988 names were dropped on account of death, removal and other causes. The number of male voters on the final list sent to the polls on the day of the city election, held January 11, 1910, was 112,265, an increase of 1,609.

There were 12,554 female voters registered for the city election in 1908. There were 11,912 female voters registered for the city election in 1910, a decrease of 642. The total increase of male and female voters from the preceding city election was 967.

The new charter provided that the first municipal election shall take place on the first Tuesday after the second Monday in January in the year 1910 and thereafter the regular municipal election in each year in said city shall be held on the first Tuesday after the second Monday in January instead of, as formerly, the first Tuesday after the second Monday in December.

AN ACT TO CHANGE THE DATE OF ASSESSMENT OF TAXES  
AND LISTING AND REGISTRATION OF VOTERS.

Under the above title the Legislature of last year passed this act providing that the first day of April instead of the first day of May shall be hereafter the date of making a list of persons liable to a poll tax and, in Boston, making a list of male residents as provided by law. From the list of persons liable to a poll tax the voting lists of all cities and towns in the Commonwealth, except Boston, are prepared. In Boston the voting list is made from the list of male residents as secured by the police. Before the passage of this act the voting lists of this city were based on the list of male residents as of May 1. It will be noticed that this date is approximately six months preceding the state election. Among the qualifications of voters described with precision in the Constitution is one requiring a residence within the Commonwealth one year and within the city or town in which a person claims the right to vote six calendar months last preceding a state, city or town election. It will be seen, therefore, that so far as the state election is concerned the first day of May is the first day of the last calendar month of the six months' period prescribed by the Constitution and appears to be, and is, the day throughout the Commonwealth upon which the lists of male residents should be made for the purpose of registration of voters. Under the act as it now stands we apprehend some confusion and inaccuracies in the voting lists of the state. To give a concrete example: Suppose a man who is assessed in Cambridge as of April 1, and carried on the voting list of that city, moves into Boston during April and registers in Boston as he has the right to do; he may be carried on the voting lists of both cities without either being aware of the fact. On the other hand, the Constitution, by the thirtieth amendment adopted by the people in 1890, provides that no person otherwise qualified to vote for national or state officers shall, by reason of change of residence within the Commonwealth, be disqualified from voting for state officers in the

city or town from which he has removed his residence until the expiration of six calendar months from the time of such removal. Now suppose a voter registered in Cambridge as of April 1 moves to Boston during April and neglects to register in this city. After six calendar months has elapsed from the time of such removal he is deprived of his franchise for state and national officers which the Constitution by an amendment — the basis of the franchise being then that of May 1 residence — practically guaranteed to him. When we consider that the usual period of the year for a change of residence is during the Spring it is not unreasonable to assert that unless voters exercise more vigilance than they usually do they may by reason of this change of residence be deprived of the right to vote for state and national officers.

This act struck out in the election laws of this state the word "May" wherever it occurred and inserted in place thereof the word "April," and especially in one section without regard to the effect such change would have upon the election laws relative to ward division. For example: The last day for change of ward lines was changed from the first day of May to the first day of April. The first day of May, 1905, passed in Boston without that change of ward lines which so many considered necessary, and it is inconceivable why the time was shortened one month, especially in view of the fact that by the proposed new charter the date of induction into office of the City Council had been advanced one month, a matter that was then under consideration by the Legislature. Under the law as it now stands instead of having a period of about three months and a half to redistrict the city the City Council has a period of about one month and a half. In this connection also the law provides that the Election Commissioners, after the annual city election in the year 1914, shall transmit to the City Clerk before February 10, for the purpose of making a division of ward lines, a list of male voters arranged by blocks or such other subdivision which the City Council may before the first day of February designate. Before the new charter became a law city elections took place in December and after the city election in the year preceding the year in which a city may divide its ward lines the list of male residents above referred to was transmitted to the City Clerk before February 10 for the use of the city government. If this law were complied with as it now stands this list, because of the change of the city election to January, would have to be presented, to the City Council a year before any use could be made of it and such lists, of course, would not represent the list of male

voters used in the election in the last part of the year immediately preceding the contemplated division. Such a list for the purpose of ward division is always provided by blocks, a division which is known to and in the exclusive possession of the Assessing Department of the City of Boston. In order to comply with the duty imposed on the Election Commissioners by this statute they were compelled in the year 1904 to engage assessors' clerks to make this compilation by reason of the fact that we were not only engaged in duties incident to the city election but also because the block system was in the exclusive possession of the Assessing Department. If the date of the city election is not changed we recommend that the time for furnishing such lists be changed in section 68, chapter 560, Acts of 1907, so as to read after the word "fourteen," "and in Boston after the annual state election in said year," and also change the word "April" to "May," in the section applicable to ward division. Moreover for the reasons stated above, especially in view of the fact that such lists must be furnished if the former amendment is made less than one month after the city election, we recommend that the law be amended so that the duty of making such lists shall be imposed upon the Board of Assessors, to which body the list of male voters can be transmitted by this Board.

It requires no sagacity to foresee that the effect of this law on the lists of registered voters in the Commonwealth, at least in cities where there is a continual change in the population, will be baneful; and especially in this city where the municipal election takes place in January, practically ten months after the list of male residents upon which the voting lists are based has been taken.

In the case of *Capen v. Foster*, in 29 Mass. at page 491, Chief Justice Shaw said: "It is competent to the Legislature to make reasonable and suitable regulation, not calculated to defeat or impair the right of voting, but rather to facilitate and secure the exercise of that right." Although there may be some doubt as to whether this act defeats or impairs the right to vote we believe we can safely say that in our opinion it does not facilitate and secure the exercise of that right.

#### USE OF SCHOOLHOUSES AS POLLING PLACES.

In accordance with our report of last year a thorough investigation of the use of schoolhouses for polling places, where the same were suitable and convenient, was made. The Board visited about 120 schoolhouses in Boston and out of this number designated rooms in the basements of 82 as

polling places in this city. From the opinions we have received we believe that the use of these basements as polling places interfered in no manner with the specific use of schoolhouses for school purposes. Although objection was made in some instances to the change of location of polling places from one part of the precinct to another the fact that the largest vote ever cast in the City of Boston was cast at the recent municipal election would seem to indicate that the voters were not discommoded by these changes. In some cities when new schoolhouses are erected provision is made in the plans for a polling place in the basement of the new school by setting off a room adapted for that purpose which also could be used during the rest of the year for any purpose incident to a schoolhouse. We believe this is a good plan for Boston to adopt and recommend it for consideration.

We renew our recommendation of last year that the policy of using basements of schoolhouses for polling places be fixed by legislation, in order that this Board may be secured in its right to so use the basements in schoolhouses for this purpose. The initial expense of fitting up these basements will not have to be borne again by the Board and the considerable saving that was made in the transportation of the booths displaced will continue.

### NEW CHARTER.

Chapter 486 of the Acts of 1909 gave the voters of Boston the right to vote at the state election upon the following plans which appeared in this form upon the official ballot:

Plan No. 1. The term of the mayor to be two years; the city council to consist of one member from each ward (except wards 20 and 24 which shall have two each) nominated in primaries and elected for two-year terms, and nine members elected at large for three-year terms; nominations for school committee, mayor, and councilmen-at-large to be made by independent nominations and by delegates elected by the voters in the primaries.

Plan No. 2. The term of mayor to be four years, subject to recall after two years by not less than a majority of all the voters in the city; the city council to consist of nine members elected at large for three-year terms; all nominations for a municipal election to be made by petition of not less than five thousand voters, without party designations on the ballot.

Plan No. 1 received 35,276 votes. Plan No. 2 received 39,170 votes. On this question there were 5,970 blanks.

Plan No. 2 therefore determined the form and the manner of nominating and electing the city government of this city at the municipal election held January 11, 1910. Plan No. 2 abolished the primary election for municipal offices in the City of Boston and repealed all laws relating to primary elections for such offices. It provided that any male qualified registered voter in this city may be nominated for any municipal elective office as set forth in said plan, provided, that on or before five o'clock p. m. on the twenty-fifth day prior to the election nomination papers prepared and issued by the Election Commissioners, signed in person by at least five thousand registered voters in said city, qualified to vote for such candidates at the election, shall be filed with the Election Commissioners, and the signatures on the same to the number required to make a nomination are subsequently certified by the Election Commissioners. It also provided for the form of nomination paper, the novel part of which was the authorization given to a committee of not less than five persons, or a majority thereof, as representatives of the signers to fill a vacancy. It may be said here in passing that because of the fact that no voter legally nominated withdrew there was no necessity of any such committee availing itself of this authorization. It also provided that nomination papers shall not include candidates for more than one office, except that not more than three or nine, as the case may be, candidates for the city council — and in the last election there were nine — may be included in one nomination paper; and not more than two candidates for the school committee — and in the last election there was but one — may be included in one nomination paper. Next year there will be three candidates for the city council and two candidates for the school committee to be elected. Every voter was given the right to sign as many nomination papers as there were persons to be elected to office and no more. The act also provided that nomination papers in each year shall be issued by the Board of Election Commissioners on and after, but not before, the day next following the state election. It can be readily seen that in order to comply with this last provision the Election Board were obliged to prepare nomination papers, as set forth in Plan No. 2, some time previous to the state election without knowing that plan would be adopted. Upon the adoption of Plan No. 2 nomination papers were issued on and after, but not before, nine o'clock a. m. of the next day following the state election.

It was contended by some persons that the Election Board had the power to restrict the issue of nomination papers to

those voters only who were candidates, but the Election Board came to the conclusion that any ~~male~~ voter in Boston had the right to such nomination papers and this conclusion coincided with the popular characterization of Plan No. 2 before election as the "people's plan." Although there was a great rush for nomination papers, especially within the week succeeding the state election, the Board was prepared for all demands made on it, having adopted a line of procedure which guaranteed the ultimate workability of this new method of nomination.

As the law provided that the Election Commissioners should certify a number of signatures which are names of registered voters in the city qualified to sign nomination papers, the Board prepared three sets of voting lists, one for the use of certification of names for mayor, one for school committee and one for the city council. Each nomination paper when filed was numbered and against the name of a registered voter was placed the number of the paper and the number of candidates nominated thereon. By adopting the rule that where a voter signed more nomination papers for each office than there are persons to be elected thereto, the signature, or signatures, on nomination papers first filed in this office up to and including the number allowed by law for him to sign were the only ones that would be certified by the Board, we prevented that duplication of names, by the system previously referred to, which, if not adopted, would have occurred to an alarming extent and would have made the nomination of candidates futile and ridiculous. About 23,000 nomination papers were issued by the Board and of this number 4,495 were filed containing 182,945 names to be examined and of which 109,264 were certified. As the act provided that the Board need not certify a greater number of names on nomination papers than are required to make a nomination, with one-fifth added thereto, the Board ceased certification of names when a candidate had approximately 6,000 certified signatures. Nomination papers of nine candidates found not to contain 5,000 certified signatures were declared invalid. In order to complete this certification the office force was compelled to work night and day, and only toward the last of the period was the Board required to engage extra clerks for this purpose. So heavy was the amount of work imposed on the department that the Board was unable to complete its certification and duly announce the names of candidates legally nominated until the last hour on the last day provided by law for such completion. The Board facilitated the work of certification by receiving nomination papers

from candidates in lots, at any time during the period between the state election and the last day for filing, even though they did not contain the requisite number of signatures. In other words the Board allowed candidates to make successive filings of nomination papers and did not require candidates to wait until they had at least 5,000 signatures on their nomination papers before filing. By announcing to candidates the number of names examined and ready for certification on those papers so filed, candidates knew how far and how near they were to a legal nomination and could redouble their efforts if necessary to secure the requisite number of signatures. The names of candidates appearing on nomination papers being a matter of public record, according to the act, were announced to the public; but the nomination papers were not open to public inspection, as therein provided, until after certification. After certification was completed the nomination papers were opened to public inspection, but no objections were filed. Among the reasons which fortifies the Board in its opinion that it adopted the right course as to certification was the fact that there would not be adequate time to hear objections involving a hearing of probably a thousand witnesses on the question of the validity of nomination papers of candidates containing 6,000 certified signatures, as many of them did contain. For the method adopted secured without duplication the certification of qualified signers as far as our certification can show them to be qualified. When, however, forgery in signatures occurs to such an extent that the Board is convinced that such forgery invalidates nomination papers of any candidate, even though no objections are filed, the Board will always avail itself of its right to present the facts to the District Attorney.

An interesting change in the formation of the ballot was caused by the provision "the names of candidates for the same office shall be printed upon the official ballot in the order they shall be drawn by the Election Commissioners, whose duty it shall be to make the drawing and give an opportunity to each candidate to be present either in person or by one representative." Formerly the names on the ballot were arranged alphabetically, and an examination of the ballot for aldermen-at-large in this city for the last few years will show a large number of candidates at the top of the ballot whose surnames begin with the first letters of the alphabet. It was generally assumed that candidates at the top of the ballot had an advantage over those further down. The innovation of drawing by lot for position on the ballot eliminates this alleged advantage always held by those candidates who, besides other qualifica-

tions, were so fortunate as to be thus alphabetically qualified, and gives all candidates from A to Z an equal chance for position on the ballot.

The drawing for position took place in the Aldermanic Chamber in City Hall. The names of candidates were written on cards, the cards inserted in blank envelopes which were sealed and placed in a revolving box from which they were drawn. One commissioner drew the sealed envelopes from the box in the presence of the Board and the candidates or their representatives, passed the same to the chairman, who, withdrawing the cards announced the names of the candidates thereon and exhibited the cards to the persons present. No objection whatsoever was made by those present to this method of drawing. The names of the candidates were then printed on the official ballot in the order thus drawn.\* While there is no doubt that some perfecting amendments relative to the details of the plan adopted might be suggested, yet, as there seems to be a general disposition on the part of everybody to give the new charter a fair trial without amendment, we do not feel it is our duty at this time to suggest any changes or amendments.

#### COMPLAINTS OF ILLEGAL REGISTRATION.

During the year there were filed in accordance with law thirty-five complaints of illegal registration. After due hearing of such complaints, at which counsel representing both sides were present, the following dispositions were made of the same:

Sustained, 12; dismissed, 17; withdrawn, 1; 4 voters transferred to correct ward and precinct, and notation made on the voting list opposite the name of 1 voter: "Confined in hospital."

#### PROCEEDINGS WHEN VOTE IS CHALLENGED.

Section 268 of chapter 560 of the Acts of 1907 in reference to this matter provides:

"If in any state, city or town election at which official ballots are used the right of a person offering to vote is challenged for any legal cause, the presiding officer shall administer to him the following oath:

"You do solemnly swear (or affirm) that you are the identical person whom you represent yourself to be, that you are registered in this precinct (or town) and that you have not voted at this election.

"He shall also be required to write his name and residence on the outside of the ballot offered, and the presiding officer shall

---

\* See reduced form of the official ballot on page xiii.

add thereto the name of the person challenging, and the cause assigned therefor, whereupon such ballot shall be received; and no person shall make any statement or give any information in regard thereto, except as required by law. The clerk shall record the name and residence of every person who has been challenged and has voted."

This section is silent as to the qualifications of the challenger. By reason of this absence of any qualification, an alien as well as a citizen, a nonresident as well as a resident, has the right to challenge, and such challenge must be received.

As the challenger is, in a sense, participating in a primary or election we believe that he should be at least a voter in the city or town in which he exercises the right to challenge; and strong reasons may also be advanced for requiring him to be a voter in the precinct in which he is so exercising his right.

Again, the words "legal cause" in this section are open to a wide interpretation. A man may challenge because he believes a voter does not possess any or all of the qualifications of a voter. The common reason for challenging, however, in this city is that the voter is "illegally registered."

Now the qualifications of voters are determined by the various tribunals of the state many days previous to the election and the statutes are clear and explicit in giving any voter ample opportunity to make a complaint for illegal registration. It would seem therefore that all cases involving the qualifications of a voter should be settled under the statutes as provided before the day of the election and that the right of a person to challenge should be confined to three causes of challenge:

- First, That he is not the identical person he claims to be.
- Second, That he is not registered in this precinct (or town).
- Third, That he has voted at this election.

It will be noticed that the oath which the challenged voter takes entirely coincides with legal causes suggested, for he takes oath that he is the identical person he claims to be, that he is registered in this precinct and that he has not voted in this election.

This indiscriminate right to challenge leads to confusion and delay, and our experience for a number of years shows us that the right to vote of a person challenged is not made a subject of further inquiry.

It would seem as though the rights of all voters are fully protected if the right to challenge were limited as above.

For this would lead to a closer scrutiny of the voting list and the settlement of all questions relative to illegal registration before the election.

#### JURORS.

The preparation of the jury list has been carried on by this Board with due regard for the full consideration of this important subject. Although the statutes do not make it obligatory on the Board to use its office force in investigating prospective jurors, yet the Board detailed its clerks to search the records of the various courts in Boston with a view to presenting facts to the Board which would aid them in eliminating persons unfit for jury service. A thorough investigation of the preliminary list was also made by the police under the direction of the Police Commissioner.

#### MEMBERSHIP OF THE BOARD.

The term of Alpheus Sanford, Esq., expired April 30, 1909. He was reappointed for the term of four years ending April 30, 1913, and assumed the duties of his office May 1, 1909. John M. Minton, Esq., was designated by the Mayor as Chairman of the Board of Election Commissioners and member of the Listing Board.

#### ESTIMATE FOR THE ENSUING YEAR.

In a communication to his Honor the Mayor we submitted our estimate of the expenses for the ensuing year, giving an itemized statement of the same, which showed that the sum of \$148,725 would be necessary.

#### EXPENSES OF THE DEPARTMENT.

Salaries, Commissioners:

## ELECTION STATISTICS.

The following pages show in tabulated form the number of persons listed, registered male and female voters, and the votes cast in Boston at the state primary and the state and city elections.

## INVENTORY.

An inventory of the property of the department is also included in the following pages.

Respectfully submitted,

JOHN M. MINTON,  
MELANCTHON W. BURLIN,  
ALPHEUS SANFORD,  
EDWARD A. McLAUGHLIN,  
*Board of Election Commissioners.*

## INVENTORY OF PROPERTY BELONGING TO THE ELECTION DEPARTMENT.

- 102 Voting booths, made of thin corrugated steel, built in 1897 and 1898. 24 are stored on D street, South Boston; 19 on K street, South Boston; 28 on Ritchie street, Roxbury; 15 on Chelsea street, East Boston, and 16 on Lexington street, Charlestown.
- 47 Wooden voting booths, built in 1898, 1901, 1903 and 1905 as permanent structures and stored as follows: 21 at D street, South Boston; 12 at K street, South Boston; 14 at Ritchie street, Roxbury.
- 34 Wooden booths, known as "knock-down" booths, all stored in building on Gainsborough street, City.
- 1 Permanent wooden voting booth erected in school yard at Tileston School, Dorchester.
- 1 Iron voting booth, "knock-down," permanently located at South street, Sewer Yard, Jamaica Plain.
- 1 Wooden voting booth, permanently located at Reservoir lot, East Boston.

The above booths when not in use are on lots at present time. To each booth belongs railings and voting compartments, tables, chairs, stove and other necessary furnishings and voting paraphernalia. The department now owns 1,700 chairs, 690 tables, 530 voting compartments and 1,090 wooden horses for the same, 250 stools for ballot boxes, 198 counting boards, 188 stoves, 1,325 leatheroid boxes, 1,670 canvas envelopes, and the required lamps, coal hods, shovels, poker, coal barrels and other minor equipment for the voting booths.

- 185 Federal ballot boxes, used at elections.
- 25 United States ballot boxes, comparatively new, used for primaries and elections as extras.
- 25 Standard ballot boxes, formerly used at caucuses, and now used as "extras" at primaries and elections.
- 29 Acme ballot boxes, constantly in need of repairs, 6 of which are regularly used at elections and the balance as "extras."
- 9 Gravity ballot boxes.
- 4 Improved Federal ballot boxes.
- 3 Hub ballot boxes.
- 2 Dean ballot machines.

All the above ballot boxes are kept in the basement room in the Old Court House. At the storehouse in South Boston are 240 old ballot boxes, not answering the present requirements of law, but placed at each polling place at elections for temporary use in case of emergency; also 108 old receiving ballot boxes, not now of any available use.

Office furniture in Rooms 1, 2, 7, 8 and 9, Old Court House, used as the offices of the department, consisting of 9 roll-top desks, 8 swivel chairs for same and 29 smaller swivel chairs, 1 library table and 5 oak arm chairs, 2 atlas cases, 3 card index cabinets, 1 filing case, 2 roll-front document cases, 2 large book-cases, 2 coat racks, 4 long tables, 3 counters, 1 typewriting table, 1 table desk, 1 large iron safe, 7 small tables, 2 office settees, 5 clocks, metal frame rack in one of large vaults for holding caucus and election boxes and books, 2 typewriting machines, stationery and required minor furnishings and fixtures for office purposes.
